

# 2024 COMMERCIAL LED REBATE GUIDE

City of Brownton

Rebates are available for eligible LED products. If lighting must be DLC qualified, it is indicated on the Rebate Calculation Table and this guide. Other LED products may be considered for a custom rebate but must be pre-approved. Before purchasing lighting, submit a Pre-Rebate Worksheet and we'll verify lighting is eligible and estimate your rebate. Questions? Call 320-328-5318.
