

By participating in the We Save program, you can save energy and earn a rebate when you purchase and install qualifying lighting in a new building or an addition to, or major renovation of, an existing building.

What Rebate Can I Earn?

Eligible lighting equipment and rebate prices are included in the Rebate Calculation Table. Unless otherwise noted, LED products must be listed on either ENERGY STAR or DesignLights Consortium (DLC) Qualified Product Lists. Products not listed on ENERGY STAR or DLC or not included in the Rebate Calculation Table may be considered for a custom rebate. Please contact Utility for more information.

Rebate Qualifications and Program Rules

- Rebate offered to non-residential electric customers of the City of Brownton.
- Rebate will be issued to the customer only. Maximum rebate amount shall be limited to 50% of project cost.
- Rebate Application must include: (1) copy of paid, itemized invoice(s) showing quantity, price, manufacturer, and model number for each product for which you are requesting a rebate, (2) completed Pre-Rebate Worksheet, and (3) Rebate Calculation Table.
- **Pre-approval is required. Customer must submit Pre-Rebate Worksheet prior to starting project. Utility will review project and verify proposed lighting qualifies for rebate.**
- **Utility reserves the right to conduct post-installation on-site inspections.** If Utility finds customer has not complied with program rules, any rebate received must be returned to the Utility.
- Only new equipment is eligible for rebate.
- Installation must be completed before submitting rebate application.
- Customer must apply for rebate within one year of the purchase date shown on the equipment invoice.
- Rebate will not be given for equipment or designs that do not comply with local, state, or federal regulations.
- Utility is not liable for rebates promised to a customer by a contractor misrepresenting the program nor any tax liability imposed on customer related to rebate payment.
- Utility gives no warranty, expressed or implied, with respect to equipment operation or performance. Utility does not guarantee that the implementation of energy-efficient measures or use of equipment installed pursuant to this program will result in energy or cost savings. Utility is not liable for any incidental or consequential damage. Utility is not responsible for the disposal of lamps and/or ballasts.
- Information submitted with rebate application may be shared with the Minnesota Department of Commerce and MMPA.
- Rebate requests are processed on a first-come first-serve basis. Annual rebate funds are limited. Rebate programs, qualifications, and amounts are subject to change at any time.
- Qualifying customers must apply for rebate by November 30, 2020.

Rebate Checklist:

- Completed Application
- Pre-Rebate Worksheet
- Rebate Calculation Table
- Dated detailed, itemized invoice

2020 Lighting New Construction Rebate Application

COMPLETE THESE SIX EASY STEPS TO GET YOUR REBATE.

STEP 1: CUSTOMER INFORMATION

Company Name:

Account #:

Contact Name:

Address:

City:

ZIP Code:

Email:

Phone:

Installation Address (if different):

STEP 2: VENDOR INFORMATION

Company Name:

Contact Name:

Address:

City:

ZIP Code:

Email:

Phone:

STEP 3: COMPLETE PRE-REBATE WORKSHEET

Pre-Rebate Worksheet provides detail for equipment being installed and is necessary to evaluate project eligibility. Quantities must reconcile with information entered in Rebate Calculation Table. If actual hours are unknown, use annual operating hours by building type/use in table below.

Annual Operating Hours by Building Type and/or Use

Description	Hours	Description	Hours	Description	Hours	Description	Hours
College/University	3,540	Hotel/Motel	3,044	Retail	4,719	Other/Misc.	4,576
Grocery	5,802	Manufacturing	5,200	School-Elementary	2,422	24-Hour	8,760
Health Office	5,095	Office	4,439	School-Secondary	4,311	Exterior	4,380
Hospital	6,038	Restaurant	3,673	Warehouse	4,746	Refrigerated Case	6,205

STEP 4: COMPLETE REBATE CALCULATION TABLE

Rebate Calculation Table calculates the dollar amount of the rebate. Quantities must reconcile with values entered on Pre-Rebate Worksheet. Rebate paid cannot exceed the purchase price of equipment.

STEP 5: ATTACH NECESSARY DOCUMENTATION

Copy of dated, itemized invoice(s) specifying the quantity, price, manufacturer, and model number of each product for which you are requesting a rebate, installation costs, and applicable taxes.

STEP 6: CUSTOMER SIGNATURE

I hereby certify that all information is accurate including claims of efficiency, size, and customer information. I have read all information on this form and agree that MMPA may verify the information I have provided.

INSTRUCTIONS Enter detail for lighting below. Complete all relevant columns. Examples are provided. If more rows are needed, make additional copies of this sheet. Lighting must be ENERGY STAR or DLC qualified, see Rebate Calculation Table for details. Customers are encouraged to provide manufacturer specification sheets. For guidance with building type or annual hours, see table in STEP 3 of Rebate Application. Watts and quantity should be consistent. (If you enter fixture watts, enter fixture quantity. If you enter lamp watts, enter lamp quantity.)
